

PEACE PARTY HAS CONTROL

War Element is in Disfavor in the Russian Capital Today.

CZAR WILL AVERT THE CONFLICT

Belief Is Growing That Diplomacy Will Settle the War Talk with Japan at an Early Date-- Japanese Pessimistic.

(Special by Scripps-McLain.)

London, Jan. 16.—Thanks to the czar's pacific utterances and to the conviction that the Russian military party is in disfavor at last and the advocates of peace in control, there is a rift in the war cloud in the far east.

Hostile preparations on both sides are still going forward, but the czar's declaration that he will do all in his power to avert a conflict is generally accepted as foreshadowing an acceptance of the terms of the last Japanese note. Negotiations will of course continue for some time, but the belief is growing in diplomatic circles that a satisfactory settlement may reasonably be expected in the end.

Agrees With United States.

Minister Hayashi, the Japanese representative here, is not as optimistic as most of his brethren of the diplomatic corps. He fears that his country's demands will not be accepted and specifically denies that the mikado's reply suggests the neutralization of a portion of Manchuria as well as a portion of Korea.

"Our conditions," he said, "are practically summed up in the concluding portion of the American state department's announcement regarding the American-Chinese treaty. For these principles, to which Secretary Hayashi says the United States is irrevocably pledged, we are willing to go to war unless Russia will give a definite promise that it will adhere to the open-door policy and Chinese sovereignty in Manchuria."

The minister qualifies his pessimistic utterances, however, with the statement that, if the statement attributed to the czar accurately expresses the latter's views, there will be no war. The question, he asserts, rests wholly with Russia. It will be unwise, he adds, for Russia to protract unduly the present suspense, in view of the feeling in Japan.

Diplomats here regard favorably the proposal to transfer the Russo-Japanese negotiations to St. Petersburg. They do not think that it is the intention simply to prolong them, as has been suggested, but that it is desired to remove them from the hands of the war party, as represented by Admiral Alexeff, the Russian viceroy, in the far East.

Asks to Pass Dardanelles.

Reports that England has notified Japan that any attempt by the Russian Black sea fleet to pass the Dardanelles would be checked by decisive action is denied.

Confirmation has been received, however, of the report that Russia has asked the porte for permission to send the fleet through the Dardanelles.

The treaty of London pledges Turkey to prohibit the warships of any foreign power from entering the Dardanelles while Turkey is at peace, and, at the same time, the treaty binds the powers to observe this rule. This was confirmed by the treaty of Paris and the convention of 1871. The treaty of Berlin, ratified Aug. 3, 1878, provided that the previous treaties were maintained, thus continuing the enforcement of the rule.

STRANGE CARPENTER TELLS HIS STORY

Says the Iroquois Theater Was Not Complete When It Opened (Last Fall.

(Special by Scripps-McLain.) Chicago, Jan. 16.—Stago Carpenter Cummings was the principal witness before the coroner's jury this morning. He was asked why sufficient safety guards were not employed at the Iroquois. He said that he hired all the men in his department but had no control over the Blue Bird company. When the fire started he was next door buying some goods. All precautions against fire were left to Fireman Sellers, who was instructed to comply with all the ordinances. It is admitted it was the stage carpenter's duty to see that everything was safe from fire. He thought the flood light was off. The building was complete when opened. He admitted the theatre had not proper fire protection.

FORMER CONGRESSMAN VIOLATES HIS PAROLE

John H. Glover Returns to Cripple Creek and Notifies Military Authorities of His Action.

Cripple Creek, Colo., Jan. 16.—Former Congressman John H. Glover is in jail for alleged violation of his parole. Glover returned to Cripple Creek Friday and sent a letter to Col. Verdeckberg, which the latter considers to be in violation of the terms of the former congressman's release. The letter follows:

"My wounds having healed sufficiently, I desire to be rid of the parole signed by me on Dec. 29. I know of no other way to effect this except to return to Cripple Creek, as I have done, and notify you, as I now do, that I will not longer be bound by it. I can be found at my office at any time between now and 3:30 o'clock tomorrow. It is, perhaps, only fair to add that I intend to push you and your accessories above and below, before and behind the scenes, to the full limit of the civil and criminal laws, state and federal."

Glover did not resist arrest, but protested against being placed in jail. No charge was preferred against him. At the jail Glover said that his counsel would begin proceedings in the United States Circuit court against Gov. Penabaz, the state military authorities and others, under the civil rights act, alleging conspiracy to deprive him of his rights under the federal constitution. He broke his parole, he said, for the express purpose of getting his case before the court.

The National League of Commission Merchants, in session at Louisville, Ky., elected C. B. Myers, Chicago, president.

ONE MAN DIES IN A SMASH-UP

Buffalo Express Runs Into a Freight Train at Dubois, Pennsylvania.

(Special by Scripps-McLain.) Dubois, Pa., Jan. 16.—The Buffalo express on the Pennsylvania railway ran into a freight train here this morning. One trainman was killed and several injured.

NEW AID TO DIAGNOSIS GIVES GREAT RESULTS

Fluorescent Liquid Enables Physician to Observe Action in Stomach of the Patient.

New York, Jan. 16.—Another important use of Dr. William J. Morton's fluorescent water cure has been made. Dr. Robert C. Kent has discovered that an almost perfect diagnosis of the stomach may be made by the use of the fluorescent liquid and a light that will cause it to fluoresce. The intestines are first flooded with the liquid and then the patient swallows a small lamp adapted for this purpose. In an experiment made by Dr. Kent he discovered that when the fluorescence took place the interior of the abdomen was plainly visible. This aid to diagnosis is almost as valuable as the discovery that Dr. Morton's solutions or liquid sunshine will cure cancer. The fluids given to the patient are very dilute solutions of various fluorescent substances and they have never been in any way subjected to the radium or X-ray influences before administration internally. In other words, the water thus administered is not radioactive, but is water capable of being rendered luminous by the agencies of radium when used from the exterior.

YOUNG ROBBER LEAVES PRISON

Police Catch Him, but Fail to Recognize Him, and He Escapes.

Jackson, Mich., Jan. 16.—Charles Snyder, a boy who had been sentenced to seven years' imprisonment for holding up a school teacher, broke jail. He was found later by a policeman at the depot and arrested as a suspicious character, but afterward released. The sheriff had not informed the police of the boy's escape and the officers did not recognize him.

Dowle's Movements.

Los Angeles, Cal., Jan. 16.—John Alexander Dowle and party will sail for Australia from San Francisco Jan. 21 for his trip around the world, expecting to return on June 20. He is planning to build a Zion on the Pacific coast.

IS INDICTED ON MANY COUNTS

Secretary of Moline Building Association Is Accused of Embezzlement.

Rock Island, Ill., Jan. 16.—J. W. Warr, for years one of the Moline's most prominent citizens, head of the J. W. Warr Publishing Company, secretary in the Moline Savings, Building and Loan association, and leader in reform, was indicted by the grand jury, sitting in Rock Island, under seventeen counts for the embezzlement of \$100,000 in his capacity as secretary of the building and loan association. He was arrested and arranged to give bonds. Warr is supposed to have used the funds to sustain his business interests, which appear to have been losers. His manipulations have sent the association to the wall and caused much hardship among those whose entire savings are tied up in it.

SIX FIREMEN ARE INJURED TODAY

Two Fires in Buffalo Do Much Damage to Persons and Property.

(Special by Scripps-McLain.) Buffalo, Jan. 16.—Fire early this morning damaged the wholesale hat store of Julius M. George and the Irish Paper company. The loss is a quarter of a million. Three firemen were hurt in a Niagara street fire, which caused a fifty thousand dollar loss to the Hay Manufacturing Co. Three firemen were hurt in the first fire.

WASHINGTON IS STILL DOUBTFUL

Officials There Do Not Think All Danger of War Is Over Yet.

(Special by Scripps-McLain.) Washington, Jan. 16.—This is again a day of pessimistic portent regarding the Russo-Japanese situation. News of a serious character has not yet been made public it received at the state department this morning. It being taken by Secretary Hay to the white house. Shortly afterward Minister Takahira of Japan arrived, but in the absence of Secretary Hay declined to see Assistant Secretary Loomis. He stated, however, that the news he brought made no change in the situation.

WILL REPLACE ALL DEFECTS

War Department Has Called in All Cartridges Issued During Recent Spanish War.

BULLETS ARE OF POOR QUALITY

Inadequate Facilities at the Time of Manufacture Are Said To Be the Cause--Shells, Will Be Reloaded at Arsenals.

Washington, Jan. 16.—Upward of 2,000,000 rounds of ammunition hurriedly purchased by the War Department during the war with Spain have been found defective. The following order, issued by the War Department immediately the inferior quality of this ammunition was discovered, will call it all in from the various commands in this country and the Philippines who now have it in their possession:

"All ball cartridges for United States magazine rifles and carbines, models 1895, 1898 and 1899, caliber 30, marked with W. R. A. 30 U. S. C. on the cartridge now in the possession of the troops, will be turned into the nearest arsenal or post for shipment to Frankfurt, Cal."

Sound ball cartridges will be substituted for it, and a great danger, due to dependence upon cartridges which are not reliable, will be removed. No one person is held responsible for the defect. It is regarded as a natural result of the inadequate ordnance manufacturing facilities in this country at the time of the war.

day work, but Representative Mann and Boutell told the Secretary of Agriculture that, unless the order was revoked many Chicago citizens would be unable to get meat, and the packers and slaughter-houses would lose much in their export trade. They explained that the Jewish rabbis will not assist in the preparation of kosher meat on Saturday, which is their Sunday, and the meat which the rabbis might prepare on Sunday could not be inspected until Monday. According to the congressmen the kosher meat which is eaten by the orthodox Jews does not include the hindquarters, which the slaughter-houses use in the export trade. The Secretary of Agriculture decided to suspend the order, and this meat will be inspected on Sunday.

Use of American Ships.

Washington, Jan. 16.—Senator Frye, chairman of the Senate committee on commerce, received a communication from Secretary of War Root in reference to the senate bill requiring that American bottoms be used for the transportation of supplies for the army and navy. Mr. Root wrote that he favors a bill which would authorize a preference for American shipping, but no mandatory requirement for the present, as unless discretion is used the United States will be put to unwarranted expense in transportation of supplies by sea.

TO WORK ON SUNDAY.

Meat Inspectors at Chicago Will Perform Duties on the Sabbath.

Washington, Jan. 16.—Meat inspectors of the Department of Agriculture will work on Sunday in Chicago. A recent order relieved them of this Sunday work.

FAVORABLE REPORTS COME FROM ALL TRADE CENTERS

Reduced Cost of Labor Has Now Brought Work to More Persons Than Formerly.

(Special to The Gazette.) Chicago, Jan. 16.—Dun's weekly review of Chicago trade, published by R. G. Dun & Co., says:

Distribution of commodities, as indicated by railroad returns, makes a favorable comparison with a year ago, and there is heavier marketing of farm products. Manufacturing, particularly in iron, proceeds with renewed confidence and the employment of larger forces, the reduced cost of labor being now an important factor in the situation. Dealings in staple merchandise at wholesale are of fair volume and increase appears in spring orders.

Road salesmen are now well distributed throughout the interior and the demand has opened satisfactorily in several branches, dry goods, men's furnishings, and footwear showing best. Country merchants are for the present cautious in the extent of their selections and disposed to defer their principal commitments in textile goods, with the prospect of a heavier business being negotiated in seasonable time. Retail trade has been retarded, owing to broken weather, but the consumption of necessities is of fair proportions.

Iron Market Firm.

Pig iron, rails and wire are in stronger request, and prices are much firmer, and for some special products dearer. Railroad requirements for the year receive consideration and specifications are more plentiful, which will involve much use of materials for roadbeds, bridges and rolling stock. The machinery and electrical lines are busy and report new business coming forward less hesitant than expected and the outlook brightening. The demand is well sustained in furniture and woodworking and there is more use of hardwoods by manufacturers, but other lumber dealers exhibit the usual quietness preceding the opening up of new building operations.

PEACE TALK IS BEING DISCUSSED

High Officials State That the Japan-Russia Crisis Is Now Over.

(Special by Scripps-McLain.) St. Petersburg, Jan. 16.—The Novoe Vremya states today that a telegram from Vladivostok reports that high officials now report that the crisis is past and that peace will be sure to come between Japan and Russia.

Hides and Leather. Receipts of hides, 4,325,155 pounds, are 173 per cent over corresponding week of 1903. Sales have been steady without notable change in quotations. Shoe and saddlery making provide fair demand for leather and the tanning industry is in good condition.

The failures in the Chicago district are mostly among small traders, the total being forty-seven against twenty-eight a year ago.

Grain Shipments. Grain shipments, 2,336,453 bushels, including 1,441,920 bushels of corn, are 14.09 per cent under the corresponding week of 1903. The demand has been best in the coarse cereals, but the aggregate of all transactions was disappointing. The market continues controlled by speculative features and the range of prices established hinders cash business. Compared with the closing prices a week ago, advances are in oats, 15 cents; corn, 15 cents, and wheat, 15 cents.

Flour and Provisions. Flour shows an increased output and sales were larger, both on domestic and export account. Provisions were freely purchased, although foreign takings bulked under expectations. Net price changes for the week are 10 cents higher for pork, 5 cents gain in lard and a decline of 2 1/2 cents in ribs. Receipts of live stock were 435,448 head, against 331,292 a year ago. Heavy supplies are attributable to the high cost of feed and enforced marketing. Sheep were in steady demand and closed unchanged in value, but choice culls declined 5 cents. Severity of suitable weight hogs caused a rise of 5 cents for the best grade.

DOG-POISONING TRIAL MONDAY

JURY FAILED TO AGREE ON A VERDICT YESTERDAY.

DEFENDANT IS EIGHTY-ONE

Years Old, and Has Never Been in the Courts Before During This Long Life—Arguments of Attorneys.

After deliberations extending over a period of two hours the jury in the dog poisoning case failed to arrive at a verdict and shortly after six o'clock last evening the foreman announced to the court that they had agreed to disagree. A new jury will be called and the case will be tried again on Monday.

Eighty-one Years Old In the testimony yesterday it developed that the defendant, John Marzluft, is eighty-one years of age. He has never been in the courts before this long period. Attorney Newhouse in his plea for the defense assured the jury that Mrs. Benwitz was the only witness produced by the prosecution whose testimony was pertinent in the case. She had testified that she had seen Mr. Marzluft drop something in the locality where the poisoned bread was afterwards found, while this allegation was denied by the defendant. It was not necessary for the defense to show who poisoned the dog. It was only required that it be shown that Mr. Marzluft was not the man.

Asks for Conviction District Attorney Jackson said that it was with much regret that he prosecuted so old a man, but that the law made no discriminations either for old or young except in the cases of children. Mrs. Benwitz was a disinterested witness in the case while John Marzluft was the most vitally interested. He agreed with the defendant's attorney that a man does not suddenly become criminal at eighty-one, but there was nothing to show that this defendant had not done the same thing before. Witnesses had testified that he had threatened to do so.

GOLD STRIPES ON THEIR SLEEVES

Efficient Services of Employees Recognized by the Chicago & Northwestern.

People having occasion to visit the North Western depot within the last few days have noticed additional decorations upon the uniforms of the passenger conductors, which have led them to inquire the reason for the seemingly lavish display of gold braid. The fact of the matter is that each gold stripe attached to the sleeve of a passenger conductor represents five years of efficient service in the employ of the North Western. When Conductor C. J. Mahoney of this city, who is in charge of the Janesville-Pon de Lac passenger got off the train last night there were six brand new gold stripes up on his coat sleeve, Mr. Mahoney having been in the service for the past thirty years.

Conductor B. D. Waite on the Madison passenger run wears six stripes certifying 30 years of faithful service in the company's employ. The conductors of the Milwaukee and Chicago passenger have stripes to their credit, as do also the conductors on the other branch. The stripes are made of gold braid, about a half-inch in width. They are sewed to the outside of the coat sleeve at the cuff at regular distances apart. The plan was recently adopted by the North Western and is in line with that of the postal department, which marks the term of the employment by stars, which are worn by several of the letter carriers in this city.

The plan was recently adopted by issued a few days ago, and some of the conductors have not had them attached to their uniforms yet, so that a coat sleeve without them does not indicate that the owner is a new man in the service.

TALK YESTERDAY ON THE MARKET

War News Did Not Affect the Prices Very Considerably—General Gossip.

The opening of the market yesterday was quite but firm with light trading. There was very little wheat offering and prices were marked up very easily on appearance of good buying orders. The action during the day was nervous. War news was not encouraging. Consols in London were off and the foreigners were sellers of American securities. These facts tended to keep up the tension in the pit and short selling was not in favor. The leading bull interest was reported a seller in wheat in outside markets but there was no indication that he was letting go any here. To close was strong at the top for the day. We can only repeat our former advice to stay on the long side of wheat and buy it on any set back.

Corn ruled strong again during the entire session and looks good for still higher prices. The demand is good on any little reaction and the short interest is becoming very nervous. Buy it on half cent breaks.

Oats made another high record today and the market shows no signs of weakening. We would take profits on long oats around these prices and lay back on any break.

Provisions were rather easy at the opening, but the strength in grains together with short covering gave the market a fair advance. They look like a purchase on weak spots, taking fair profits, for the present. Floyd, Crawford & Co.

AMONG THE WORLD'S WORKERS

News Notes From Various Sources of Great Interest to the Workman.

The Tennessee State Labor convention at Knoxville, recently passed a resolution asking congress to pass a law granting a pension of \$12 a month to every workman who shall have reached the age of sixty years and have earned less than \$1,000 a year. The law is to be modeled along the lines of the New Zealand pensioners law for laborers.

Krimmitchan, a textile center of Saxony, has been the scene for the past three months of a bitter conflict between the forces of labor and capital. The contest is a trial of strength between the united German textile manufacturers on one side and the Social Democracy on the other.

The Chicago Typothetae Dec. 29, issued an ultimatum to the Franklin Pressmen's Union that hereafter the scale of wages would be \$13 per week instead of \$12. The places of any who will not accept this reduction will be declared vacant.

As a result of the high price of cotton, 4,000 men, women and children employed in the textile mills in Philadelphia have been laid off indefinitely. This enforced idleness will continue until cotton quotations tumble.

President Gompers of the American Federation of Labor, in an editorial in the American Federationist, organ of the federation, strongly advises union labor to resist wage reductions, and urges employers not to force the issue.

Notices of a wage reduction were posted at the McKeesport, Pa., plant of the United States Steel corporation. Ten thousand men are affected by the wage reduction, which will be generally accepted.

The employees in the fence department of the National Wire Corporation factory of New Haven, Conn., have been notified of an 11 per cent. reduction in wages. About 400 men are affected.

Many of the Indiana miners are laying off two weeks to enjoy the Christmas holidays, and the mines that are working have greatly reduced forces.

The Mormon church has declared against union labor, in that one of their officials has advised young Mormons to take the place of the striking Utah miners.

Six hundred Chicago trade unions will be asked to assist the corset workers locked out by the Kable Corset company at Aurora, Ill.

The school teachers of New Brunswick, Canada, have formed a union and have agreed on a minimum scale of salaries.

Several thousand steel workers in Pittsburgh have reduced wages after January 1.

OAK HILL OWNERS' ANNUAL MEETING

Was Held at the City Hall Last Evening—Volney Atwood Was Made President.

At the annual meeting of the Oak Hill cemetery association stockholders in the city hall last evening reports were made showing the organization to be on a sound financial footing and outlining the various improvements made this year. The following officers were elected: President—Volney Atwood. Treasurer—S. C. Burnham. Secretary—W. F. Carle. Executive committee—W. J. Skelly and W. T. Sherer. Trustees—Mrs. Mary Crosby, J. A. Fathers and Volney Atwood.

TRYING TIME AT THE UNIVERSITY

Athletic Are Much Muddled Up at Present—Crew May Not Go East This Year.

Now is a trying time for athletics and athletic managers at the University of Wisconsin. Things seem bright for Coach Kilpatrick's track team, but in all other departments there are gloom and adverse situations. In the football department there is acrimony and bitterness over the selection of an assistant to Head Coach Curtis, he being in favor of the election of "Eddie" Cochems, Upson Creek letter society brother and team mate for three years, and the members of the eleven of next year, prospectively, having held a meeting and decided that trouble would come in the event of the election of Cochems; in the baseball department there is a struggle over the election of coach, it being rumored that the manager and some members of the faculty are inclined to draw the color line on Julian V. Ware, a southern grown baseball star of dark skin, though he professes to be of French and Spanish origin; in the crew department there is grief over the bad financial condition of the athletic department, which will almost surely prevent the sending of a Badger crew east to participate in the annual regatta on the Hudson at Poughkeepsie; in basketball there is lethargy and in gymnastics interest is low. The crew matter is perhaps the most serious, for it has always been the prospect of the competing with the great eastern institutions that has kept this department alive at Madison. Ordinarily the subscriptions of Milwaukee alumni and others there have made it possible to take the crew east. These supporters will not give this year because of the "harping" of Milwaukee managers in removing the big Minnesota game, promised Milwaukee a year ago, from the Cream City to Madison.

BAENSCH MEN ARE AFTER COW LIST

Will Make Demands on State Officials for Copies of the Cow Census.

The friends of Judge Emil Baensch will probably try to deprive Gov. La Follette of his exclusive monopoly of that cow census as a list for sending out mail matter to the residents of the state.

It is understood that the friends of Mr. Baensch also think that this cow list will make a fine mailing list, and that a demand will be made on the state officials by friends of Mr. Baensch that they be allowed to copy this mailing list for political matter which has been collected by the assessors.

Just how the state officials will avoid giving up this mailing list, even if they desire to do so, is a question, as the list is undoubtedly public property and a matter of public record.

During the time the list is being copied by the students room 1 in the capitol will, however, probably be vacant for a few days.

Judge Baensch is at the republican house in Milwaukee making plans for his organization work in Milwaukee. He says a great many personal letters are being sent out in the state in his behalf.

SHE KEPT HIM ON HIS KNEES

The Evansville Review Tells of a Plucky Evansville Girl and Her Last Proposal.

Just as an Evansville lover had dropped on his knees and began the usual stereotyped proposal to his girl a few days ago, says the Evansville Review, a not poble, who thought the proceedings rather strange, made a dash for him. With great presence of mind and remarkable nerve for a woman, the girl reached over and grabbed the dog by the neck and at the same time calmly saying, "Go on, George, dear, I'm listening to what you are saying."

PROGRAM FOR THE ANNUAL MEETING

OF TOBACCO GROWERS AND DEALERS AT MADISON.

WILL AWARD MANY PRIZES

S. B. Heddles and G. H. Rumrill of This City to Present Interesting Papers.

Arrangements have been completed and a program prepared for the third annual convention of the Wisconsin Tobacco Growers' and Dealers' convention, to be held at Madison, Wednesday, Feb. 24, next. The convention, comes on the same date as that fixed for the meetings of the agricultural, horticultural and kindred societies that usually call out a large attendance of farmers, and for which the railroads grant reduced rates. There are more than five thousand farmers in the state who also are tobacco growers and it is certainly to be hoped that a sufficient number of them can make it convenient to attend a convention that is principally gotten up to promote their interests, to make a large and successful gathering. The topics to be discussed bear directly upon conduct of their business. The growers are equally interested with dealers in securing a creditable display of Wisconsin tobacco at the St. Louis exposition and this is an important matter coming up at that time. The state producing the largest amount of cigar leaf ought not to be behind those of lesser importance which have already preparations in hand for extensive exhibits. The prizes which the association offers for samples of 503 cigar leaf, to bring out a strong rivalry among the growers. The reputation of having produced prize winning tobacco is something which every farmer should strive for. The writer hopes the growers will talk up the coming convention and assist in making it what it aims to be—a meeting of interest and profit to all engaged in the tobacco business.

Program Reading of minutes of last meeting. Appointment of committee to award prizes.

Prizes to Be Awarded 1st prize—\$10. To the grower displaying the best five-pound sample of cigar leaf.

2d prize—\$5. To the grower displaying the second best five-pound sample of cigar leaf.

3d prize—one year's subscription to Wisconsin Tobacco Reporter. To the grower displaying the third best five-pound sample of cigar leaf.

4th prize—four ounces pure Havana seed. To the grower displaying the fourth best five-pound sample of cigar leaf.

5th prize—one box of cigars. To the grower displaying the fifth best sample of cigar leaf. (Said cigars to be smoked by the members of the association present.)

6th prize—two ounces of pure Havana tobacco seed. To the grower displaying the sixth best five-pound sample of cigar leaf.

All of said samples placed on exhibition are to be of the 1903 crop and donated by the exhibitors to the association as value received for premiums offered as above specified. All said samples to be sold at auction at the conclusion of the exhibit. All exhibitors for the above specified premiums must be members of the association and growers of samples exhibited.

MADISON CENTER OF NEW DIOCESE

The Contemplated Change Will Make Room for a Polish Bishop with Headquarters at Green Bay.

It is stated in Milwaukee that a new Roman Catholic diocese, with Madison as its administrative center, is planned, to be formed out of the western portion of the Milwaukee diocese, the southern portion of the La Crosse diocese and perhaps a portion of the Green Bay diocese. It is said that the new diocese will make room for a Polish bishop at Green Bay.

The Polish congregations of the Roman Catholic church in Wisconsin and the northwest have long been eagerly pressing their claims to the appointment of a Polish bishop, with the present situation of the ecclesiastical divisions of the church it has been believed impractical to secure a Polish bishop, but if the Associated Press dispatch above be correct this strong branch of the church may yet succeed.

The Catholic clergy of this city have received no official announcement of the fact, and nothing definite as to the contemplated change can be learned at Madison.

WILL CUT RIVER ICE AT BELOIT

Interurban Fears for the Safety of Its Bridge Just North of That City.

Because of the strain upon the bridge of the Rockford, Beloit and Janesville Interurban railway over Rock river in the north part of Beloit when the factories are not using the water for power the road will cut a strip of ice entirely across the stream to relieve the pressure.

Superintendent Nutt said today that the strain upon the bridge was a great one when the big mass of ice was backed up by the shutting of the gates at the dam, and that the road could not afford to have the harm caused to the structure. He said there was no particular danger, except that it was hard wear on the bridge which could be saved by cutting out a strip of ice two or three feet wide. This will be fenced in as he says the law requires.

President Roosevelt, in his annual message, stated that for the last fiscal year there had been 25,566 persons appointed through competitive examinations under Civil Service rules. This was 12,672 more than for any previous year, and forty per cent of all who passed the examinations. There will be a post office examination in this city the first Wednesday or Saturday after May 1. There will be examinations in several places in this state for Railway Mail Clerks, Stenographers, and many other positions during March and April. The Columbian Correspondence College of Washington, D. C., has issued an announcement giving the dates and places for holding examinations, the age limits, physical qualifications, education required, and full information about the various positions in the Government Civil Service, and it will be sent free to all who write for it.

THE YOUNG DEAN OF BIRD-LORE.

FRANK M. CHAPMAN

Frank M. Chapman, author of "The Color Key to North American Birds," just published by Doubleday, Page & Company, more than any other man, perhaps, is teaching people to know the birds. One of the foremost living ornithologists and a curator in the American Museum of Natural History, New York city, going to some obscure corner of the world each year to get new birds, photographs, and information, he is also one of the most delightful literary writers and lecturers on the subject, finding time, with it, to edit a magazine and to write the illustrated Bird-Lore. His private collection of photographs of American birds in their natural haunts is the largest and most remarkable in the world. The new "Color Key," which is issued by the publishers of Country Life in America, to which also Mr. Chapman is a contributor, is a sort of illustrated dictionary, ingeniously arranged that one may learn a bird's name with the least possible difficulty.

...Forty Years Ago...

Janesville Daily Gazette, Saturday, January 16, 1864.—The Leap Year Party Last Night.—As might have been expected, the leap year party at the Hyatt House last night under the management of Misses Hattie Culver, Maria Williams and Dell Granger, the ladies who had the affair in charge, was a brilliant success. There were thirty seven couples present, making a very pleasant and select company. The gentlemen invited were called for at their residences by the ladies and escorted to the hotel in sleighs and afterwards were waited upon to the dining hall where the dancing took place. About midnight the guests were supplied with refreshments, when music and dancing resumed. As the breaking up of the party the gentlemen were escorted to their homes, and thus ended the first Leap year party of the season in Janesville. The receipts at the door were very handsome, amounting to \$74. After defraying the expenses the balance is to be given to the poor fund.

P. S.—Since writing the above we learn that \$20 were donated for the benefit of the poor.

The Fifth Battery.—The Wisconsin Battery through the city today, enroute for Madison where they will receive a thirty days furlough. They have re-enlisted and number 122

men. 97 were her today and the balance remained at camp. They have been gone two years and have received but five recruits in that time. This shows that they have been very lucky.

Re-enlistment of the 14th Regiment.—We learn that the 14th Wisconsin (Brave boys they were) have re-enlisted and probably pass through the city next Monday on their way to Madison. They number three hundred strong and will return to the field after a thirty days' furlough.

Creditable.—Some drunken vagabonds amused themselves last evening by tearing off the gates from people's front yard and throwing them in out-of-the-way places. We do not know whether there is a special police employed in the city to prevent such outrages. If we have such officers, they should be on the alert, and give these loafers uncomfortable quarters at the "Pembor House."

General Butler is busy at work to effect an exchange of all our prisoners.

Another blockade runner has been captured off the North Carolina coast but at the sacrifice of some of our officers and seamen.

Mrs. W. Shroode and her little son, Will, of Janesville is visiting friends in Porter.

ONE WORD IN TIME
Is Better Than Two Afterwards. A Chance to Profit By a Janesville Man's Experience.

It is a strange thing how people will put away an opportunity until too late; it's only little things that go to make up our every day existence; the trouble is we don't pay sufficient attention to them. Backache is a little thing. Sometimes it comes after a hard day's work or a slight cold. It will pass off, you say; it's only the result of overtaking my back. It isn't the fault of your back but your kidneys. The exertion of straining has interfered with their delicate mechanism. You call it backache, but it really is kidney ache. If the kidneys are not relieved, chronic disorders set in and this is where the "little thing" should not be passed over. A Janesville man has learned to appreciate what delay means.

Mr. H. W. Rodgers, carpenter of 210 South Main street says "My wife had kidney complaint and rheumatism for five years suffering a great deal from pain across the loins. Doan's Kidney Pills, sold by the People's Drug Co., brought much longer for and gratifying results. First there was no visible change and she came to the conclusion that they were like all other medicines she had tried but finally the aching and the distress in the small of the back disappeared."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for U. S.

Remember the name Doan's and take no other.

CHICAGO CATTLE RECEIPTS.
Our cattle receipts Monday were 44,123, which 322 aced of the high record made here in September. With such excessive receipts it was to be expected that we would have a serious decline but considering the number and the conditions they were well bought up at prices fully as good as any one could expect. Many cattle though that were sold Monday could not be weighed until Tuesday, something that does not happen very often, as nearly every consignment is sold the day of arrival and remittances made the same day. Today with only about 17,000 fresh receipts our market rested 10c on the kind selling from \$5.25 up, the medium kinds selling about steady and the common ones slow sale at barely steady prices.

Butcher stuff has made up a very large proportion of our receipts this week and is assumed to suffer the most in consequence. Such was about steady today. We look for an upward tendency to the cattle trade. The demand never was better for this time of year.

Hogs.
Notwithstanding the heavy run Monday, the heaviest in over two years, the total for the week so far is about 10,000 less than same time last week. Today with moderate receipts (30,000) and a very strong demand our market opened 10c to 15c higher and the bulk sold that way but toward the close a weakness developed which wiped out a good part of the early advance. Light hogs sold mostly from \$4.65 to \$4.80, heavy packing \$4.85 to \$5, and shippers \$5 to \$5.10 with a top at \$5.15. While we believe we are going to have rather liberal receipts for the next month there will be demand enough to absorb the offerings at about present prices. Heavy hogs are going to bring a good premium over other weights so those feeding need not be afraid to mature their hogs.

Sheep.
We had all kinds of markets in the sheep trade today. Ewes sold 10c higher, yearlings strong, best lambs steady, with a top at \$6.25, heavy and medium grade lambs 10c to 15c lower. Prospects are good for sheep.

Jennie—Is it true that Joe occupies the first place in your heart? Sadie—Not much, my dear, Hollister's Rocky Mountain Tea first, last and all the time. 35 cents, tea or tablets. A. Voiss' Pharmacy.

Homesekers' Excursions via the Chicago, Milwaukee & St. Paul Ry.

One fare plus \$2 for the round trip, effective first and third Tuesday of each month from December 1903 to April 1904, inclusive. Dates of sale December 1 and 15, 1903; January 5 and 19, 1904. For details apply to agents of the C. M. & St. P. Ry.

LETTER TO J. A. FATHERS.
Janesville, Wis.

Dear Sir:—You know a good paint when you see it. Devot Ready Paint is the paint that costs half as much as lead and oil because it wears twice as long.

But it looks no better, when first put on.

You must wait a little to see the difference.

The first summer takes off the gloss of lead and oil; the second summer it chalks; the third, it wants repainting. It probably spots in a month or six weeks; the gloss goes off in spots or in sections.

Devot ready paint even holds its gloss longer than lead and oil wears. The loss of gloss marks the beginning of wear, but it keeps out water ten years, under favorable conditions.

Painters think three years is enough. It is for lead and oil.

Yours truly,
P. W. Devot & Co.

NOW IS THE TIME TO USE HY-OMEI

Cures Catarrh and Prevents Colds, No Stomach Dosing, Just Breathe It.

At this season of the year, catarrhal troubles are very prevalent, and nearly every person suffers to a certain extent.

Catarrh is actually the result of a succession of colds and can be easily prevented if the proper treatment is followed.

Hyomel is a natural yet scientific cure for the colds and grip troubles that lead to catarrh, as well as a positive cure for the disease itself.

The balsamic air of Hyomel, breathed through the small pocket inhaler that comes with every outfit is filled with germ-killing and health-giving qualities that penetrate to the minutest air cells of the head, throat and lungs. It kills all catarrhal germs, frees the mucous membrane from poisonous microbes, and makes a perfect and complete cure of catarrh.

The complete outfit costs only \$1, while extra bottles of Hyomel can be procured for 50c. The Peoples Drug Company sell Hyomel on the "no cure, no pay" plan, and will refund the money if it fails to give perfect satisfaction. You take no risk whatever in using Hyomel. It is the only treatment sold under a guarantee of this nature where a leading druggist agrees to return the money if the treatment fails to cure.

Bright's Disease and Diabetes News

San Francisco, Nov. 23, 1903. To the Editor of the Wisconsin.

Dear Sir:—For many years an editor myself, I address you by request and as a simple duty. A great discovery has been made in this city. It is fraught with so much importance and yet is so hard to believe, that those who are personally cognizant should add the weight of their influence, be it great or small.

I not only know by contact with many of the beneficiaries, but was myself rescued from Bright's disease by it. The cure has been found, and the difficulty in believing it is costing many lives. It is astounding how far our prejudices carry us. But the great fact is here, and acceptance means recovery.

After my own unexpected release I wouldn't let my friends rest and several took the treatment and recovered. One was Charles F. Wacker, the Sixth Street merchant. He had Diabetes and thought he was going to die. He got well and passed for a \$5,000 policy.

I say to you as a brother editor that those of your friends who have Diabetes or Bright's disease, and every one knows of some, that they can recover. I will be glad as one of many survivors out here to give you further information.

Yours &c.,
CHAS. H. ENGELKE.

We sent for the Fulton Compounds to which the above refers and now have them in stock. They are the first cures the world has ever seen for chronic Bright's Disease and diabetes. We are sole agents. Free pamphlet. Peoples Drug Co. and King's Pharmacy.

Rheumatism and Liver Complaint

SUCCESSFULLY CURED BY

DR. DAVID KENNEDY'S Favorite Remedy.

Mrs. S. C. Abell, of Roberts avenue, Syracuse, N. Y., says: "For a number of years I have been troubled with Liver Complaint and Rheumatism. I became so ill I could scarcely walk across the floor. One of our home physicians informed me that I had Heart Trouble also, and began treating me for that. His treatment did no good. One day I read of Dr. Kennedy's Favorite Remedy, which I began taking and improved greatly. I have now taken six bottles, and was never so well in my life. I can say nothing but kind words for Dr. David Kennedy's Favorite Remedy, to which I owe so much. I know of another case in which Favorite Remedy restored to health a friend, who was thought incurable."

Dr. David Kennedy's Favorite Remedy is a never failing specific in diseases of the skin and blood. It restores the disordered liver to a healthy condition and corrects the condition. It is a certain cure for the diseases peculiar to women. It cures Scrofula, Salt Rheum, Erysipelas, Nervousness, Loss of Sleep, or that Worn Out Feeling. In cases of Rheumatism, Dyspepsia, Bright's Disease, Gravel, Diabetes and Bladder Troubles, it has cured where all else failed.

If you are not already convinced that Favorite Remedy is the medicine you need you may have a trial bottle sent you by mail absolutely free, by sending your address to the Dr. David Kennedy Corporation, Rondout, N. Y., and mentioning this paper.

Dr. David Kennedy's Favorite Remedy is for sale by all druggists, at \$1.00 a bottle, or 6 bottles for \$5.00—less than one cent a dose.

Dr. DAVID KENNEDY'S CHERRY BALM best for Cold, Cough, Consumption. 25c, 50c, \$1.00.

OUR SATURDAY NIGHT.

"You're a great little wife and I don't know what I would do without you." And as he spoke he put his arms about her and kissed her, and she forgot all the care in that moment. And, forgetting all, she sang as she washed the dishes, and sang as she made the beds, and the song was heard next door, and a woman there caught the refrain and sang also, and the two homes were happier because he told her that sweet old story—the story of the love of a husband for a wife. As she sang, the butcher boy who called for the order heard it and went out whistling on his journey, and the world heard the whistle, and one man hearing it thought, "Here is a lad who loves his work, a lad happy and content."

And because she sang her heart was mellowed, and as she went about the back door the cool air kissed her on each cheek, and she thought of a poor old woman she knew, and a little basket went over to that home with a quarter for a crate or two of wood.

So, because he kissed her and praised her the song came and the influence went out and out.

Pass on the praise.
A word and you make a rift in the cloud, a smile and you may create a new resolve, a grasp of the hand and you may repossess a soul from hell.

Pass on the praise.
Does your clerk do well?
Pass on the praise.

Tell him that you are pleased, and if he is a good clerk he will appreciate it more than a rise. A good clerk does not work for his salary alone.

Teacher, if the child is good, tell him about it; if he is better, tell him again. Thus, you see, good, better, best.

Pass on the praise now. Pass it on in the home. Don't go to the grave and call "mother." Don't plead, "I hear me, mother, you were a kind mother; you were a good mother, and smooth away many a rugged path for me."

Those ears cannot hear that glad admission. Those eyes cannot see the light of earnestness in yours. Those hands may not return the embrace you now wish to give.

Why call so late? Pass on the praise today.—Kansas City World.

How many men having employees think what it means to the man working under him those few words of praise for his good work. It gives the workman a whole soulful feeling. It makes him feel his hard earned labor has been appreciated and that life is worth living after all.

He goes to his home with a spirit of contentedness that spreads itself to his whole family and to all those he comes in contact with. It is much easier to say a word of praise to a trustworthy employee than to keep up a continual nagging at him. It makes him satisfied with his position and makes him work all the harder.

The same is true of the school boy. He does the best he can and if the teacher is wise she will appreciate his efforts and say a word of praise. It will encourage him to do better and soon without knowing it he is working at the top notch of speed with all steam on. He is interested in his work. He is fond of being told he is doing well and with this beginning he goes out into the world with the determination to do the best he can because he has always done it in the past.

It is surprising how few words will bring a man from the slough of de-

pair to the pinnacle of happiness. There was a poet once who wrote, "Words are wonderful things. They are sweet like bee's fresh honey. Like bees they have terrible stings."

How true these words are. We remember the harsh cold words long after they are said and forgotten by the sayer. We cherish the thoughts of words of approval and commendation and go about our work cheerful in the thought we are appreciated. It takes but little effort to say a kind cheery word. Which had you rather meet? A man who is always complaining about life or one who is happy with what each day brings? One who sees good in everything or one who is suspicious of everyone?

Perry Wilder seems to have political aspirations of the same nature as Mr. Mayhew had but like Mayhew his boom will be punctured in the bud. Whitehead is the cynic of the majority of the republicans and he will have the nomination.

The anti-canteen law in the United States army has done much harm to the general run of the soldiers. With a canteen they are restricted as to the quality and quantity of their drinking. Now they have no limit set but their capacity and pocket book.

Have you noticed that this Hanna boom is much talked of in the south and west that are sure enough democratic states every election. Indiana is the only northern states that favors Hanna and this is because Perry Heath got real mad.

Evidently Mr. Heath is just a bit nervous over what will be asked of him to tell. Meanwhile his paper is damming Roosevelt like a good fellow and calling for Mark Hanna to run for president.

The Free Press will try to bluff through that Sturdevant letter episode and then apologize as they did to Col. Dan Starkey two years ago.

Is it possible the two Wisconsin Senators think their place on the list of delegates to the national republican convention is a sure thing?

A Missouri murderer held a reception to the curious public the night before he was hung and apparently enjoyed himself very much.

Colombia still seems to be having a good time trotting its soldiers up and down through that neck of the woods called South America.

Few tanks would remain open after night for the pleasure of having a run upon them but that is what a Superior bank recently did.

That grand jury in Milwaukee can go into state affairs just as much as it wants to. How about that book scandal for instance.

Bryan says that a dark horse will win the democratic nomination and that the good old followers of the long earned animal will surely win.

What do you think of any one who would go to St. Louis July 6 for unless he went to see the side show of the fair.

The Bonall camel can go for several days without water. So can some of our good drinkers when in condition.

That County Normal should be carefully considered by our county dads. We need it for future generations.

Babcock will show them all cards and spades when it comes to being nominated in his own particular district.

Janesville does not seem to have taken kindly to the Hearst boom despite the fact Gov. Peck is for it.

Tom Johnson has at last secured the three cent fare for Cleveland but he failed to be elected just the same.

Those law books on use of the mails will be well thumbed in the attorney Generals office these days.

Times may be hard yet it these continual war rumors break people in the cities buying war extras.

So Hearst will teach the democrats a lesson and establish a newspaper in St. Louis. Poor St. Louis.

If General Uribe-Urbe does not look out they will cut the canal right through his name after all.

Emperor Leopold has decided not to visit St. Louis fair after looking over the list of attractions.

In their eagerness to secure peace both Japan and Russia are rushing preparations for war.

How can a girl marry her own father? This is a question for the Beloit News to answer.

Cuba will sign treaties if it must but it makes weary faces when the deed is suggested.

L. K. Luse of Superior will sound well with the prefix Judge in front of his name.

If uniforms counted Janon would make a great showing against Russia anyway.

It is hard on a man who holds a small state office to work over time for his political pull.

Milwaukee is having a hard time with its aldermen as St. Louis did.

Wholesale quotations on war news has sent the stock market up in the air.

St. Louis is certainly a wonder when it really wakes up.

Mr. Baensch says he is for harmony.

Mr. Cook says he is for harmony.

PRESS COMMENT.
Sheboygan Telegram: Senator Gorman, Judge Parker or some other Democrat will undoubtedly receive the nomination.

Superior Telegram: It is said that during 1904 it will be fashionable to wear your old clothes. This fashion will catch many of us well prepared.

Detroit Tribune: Any time he needs a little change Mr. Schwab will ask junk dealers to bid on that pile of stock certificates he has on hand.

Cincinnati Commercial Tribune: The Russian troops are massing at Blagoveshensk, and the fact got past the press censor for want of an ax hard enough to chop it out of the message.

Elkhorn Independent: Dictators should prepare to treat the "airship neck." All those balloon races are going to play the mischief with the cervical muscles.

St. Louis Globe Democrat: Gorman's congratulations from the Colombian senators may point the way the long-sought Democratic issue. The fact that it would be marked "Made in Bogota" would add to its peculiar interest.

Minneapolis Journal: Somerville, Mass., elected the milkman for mayor, and what did he do but devote a large part of his first inaugural address to the great waste of the water in his city.

Appleton Post: The women managers of the St. Louis fair want \$100,000 appropriated for social purposes. If they by it by the case and serve it in ordinary glasses, there ought to be sociability enough to go around several times.

Delavan Republican: There are outward indications that a portion of the "stock book" found in the way into Walworth county, but it is not in our hearts to intimate even that it was used in "subsidizing" certain county journals up to the reform scratch.

Maryland Democrat: And now theatre passes are said to have caused the Iroquois disaster by influencing public officials to wink at violations of the safeguarding ordinances. Well, who is to be blamed? Only Mayor Harrison's blackmailing henchmen. No one else.

Chicago Record-Herald: Mr. Bryan has come home from Europe thoroughly convinced that the Republican form of government is best, and still honestly believing that he knows the man who could, if he only had a chance, bring this republic to its greatest glory and highest usefulness.

Washington Times: Winston Churchill says that he made a great sacrifice when he went into New Hampshire legislature, because it interfered with his literary work so that he delayed finishing his new historical novel for a whole year. The public is suitably grateful to Mr. Churchill.

Eau Claire Leader. Senator Hear makes a good many inquiries, but he does not know. He merely wants to know, you know, Yankee fashion. His principal classic favorite is Socrates who sauntered around from door to door bothering his Athenian neighbors with conundrums and interfering with their work.

New York Tribune: The old saw, "How have the mighty all fallen," is aptly illustrated by the coal barge Desanog, now discharging a cargo at Providence, R. I. This humble-looking craft was once the private yacht of the Khedive of Egypt, and she transported the famous obelisk at Central Park, New York city, from Egypt to this country.

Beloit Free Press: If Mr. Baensch and Mr. Cook are not the right kind of Republicans to receive the united support of the Republicans of the state at the polls, then trot some others to the front. The Wisconsin woods are full of men who can be hewed into first class gubernatorial timber. The chief object in view in selecting a candidate for governor is that he shall be one that all Republicans can and will vote for.

New York World: M. Goebel, an antiquary of Brussels, once gave a dinner remarkable for its ripe state of preservation. It comprised apples 1,800 years old from an earthen jar taken from the Pompeii ruins; bread made of wheat thousands of years old taken from the Egyptian pyramids; butter taken from a well in Scotland, where it had lain 400 years in cold storage, and wine recovered from a vault in Corinth. There was plenty of butter, but the other provider was divided by the spoonful.

CHARGED HIM WITH ROBBERY

MRS. OTTO SCHMIDT SAID HUSBAND WAS IN BOSTWICK RAID.

HORSE THIEF JARVIS IN TOILS

At Belvidere, According to Dispatch Received This Afternoon—Police on Trail of Overcoat Thieves.

Otto Schmidt, the baker residing on Prospect avenue who was arrested a few weeks ago on complaint of his wife who failed to appear against him when he came up for examination, is again in trouble. On Wednesday the wife again complained against him for using abusive language and among other things alleged that he was implicated in the Bostwick robbery. The officials carefully examined Schmidt before a stenographer but there was nothing in his statements that would indicate that he had anything to do with the crime. It is thought that the wife, in her anger against the husband, grew hysterical and made wild and unwarranted statements. Schmidt was given three days in jail for abusive language.

Henry Jarvis Arrested
Chief of Police Hogan received word this afternoon to the effect that Henry Jarvis, wanted here for taking a team from Ryan's livery barn one night during the first week in January and leaving it in Schneider's barn in Beloit, the apparent purpose being not to return it to its owners, had been arrested. Jarvis was sent to Waupun for two years on December 6, 1901, for stealing a horse and had also been sent up twice before from this city for forgery and other crimes.

Overcoat Stolen
Two men representing themselves to be linemen employed at Harvard alighted from train 505 in the North Western freight yards this morning. A few moments after the train pulled out M. O. Peterson of St. Paul, had been sitting near them in the coach, missed his valuable overcoat. The authorities here were notified this afternoon and Harvard officials are looking for the men. "One of the men is said to be known as 'Big Gus' and the other is called Harry Downe."

Marzuff Case Adjourned
Owing to the fact that Attorney Nowhouse has important business that calls him to the south on Monday, the Marzuff case was today adjourned three weeks.

COOK SEEKS FOR HARMONY NEXT

Republican Candidate for Governor States His Purpose in an Interview.

"I have endeavored to be explicit in what I have said regarding my candidacy for the republican nomination for governor, and I do not believe the voters will misunderstand my position," said Hon. S. A. Cook of Xenia, in a recent interview. "As a republican I ask the support of all republicans, but my campaign or my candidacy is in no way connected with or in the interest of any faction. In the announcement of my candidacy, I stated that it was positively nonfactional, and solely in the interest of republican harmony in Wisconsin, and in making this declaration every citizen of the state can rely upon the fulfillment of this course to the letter."

Not With Either Faction
"In view of the fact that the attempt has been made to create the impression that I am the candidate of one or the other of the factions, or that my candidacy is only the part of a political plan, I wish it understood that to the best of my ability it is my purpose to conduct a non-factional republican campaign along the lines originally mapped out. Every day I am receiving proof of support from men who have heretofore been on both sides of the republican contention in this state, and I believe that the voters generally desire party peace and party harmony. This certainly can not be the result if factional lines are maintained."

Mr. Cook went on to explain that in some sections of the state the attempt was made by those interested to connect his name with the administration and to claim that his candidacy was in the interest of the administration. In other sections, he said, it was being asserted that he was a candidate solely in the interest of an anti-administration movement.

Appeals for Party Harmony
"What I want to do," said he, "is to appeal to the republican voters of Wisconsin, regardless of factions and past dissensions, and have them unite in a common purpose to restore party harmony. In hoping for this result and desiring it, my candidacy is nonfactional and is not in the interest of any faction or set of individuals, but in the interest of the republican party generally, and I hope for the good of Wisconsin. The attempt will no doubt be made to connect my candidacy with political deals of one kind or another, and to try to impress the voters that I am a factional candidate, in stead of proposing a possible plan for harmony and party peace. In making this statement, I do so with the view of giving the republicans of Wisconsin every assurance that I am not a factional candidate and that my campaign will not be in the interest of any faction."

TO INSTALL BIG TURBINES AT THE DAM NEXT WEEK

Board Casing and Packing Have Been Removed From the Cement Walls, and Everything Is in Readiness. The casing and packing has been removed from the cement walls at the dam and visitors are now able to gain a fair idea of the scheme and arrangement of the new power plant there. Mr. Fish expects to install the big turbines next week.

Reports coming to the office of Game Warden Overbeck show that the issuance of resident hunting licenses is still in progress with the county clerks of the state. The total for the issue of these licenses was passed by several thousands a month ago and more, but the continuing increase over last season still greater. The reasons for this are the facts that the sale of game is prohibited and people are more generally hunting for their own game rather than buying it, and also that there is to be a season of spring shooting. The wardens in the northern part of the state are reporting the seizure of quantities of game birds and of venison killing out of the season allowed by law.

BELOIT EXPECTS A GOOD SPRING

Chief Scheibel, Who Was in Janesville Today, Says Outlook is Good—Brings Guest for Jail.
Chief Scheibel of Beloit was a Janesville visitor this morning. He brought with him a vagrant by the name of "Illinois Tom," who, according to the Beloit official is worse than the Janesville police enthusiasts because he will neither work nor play. "Illinois" will visit at the county jail for a short time. "We are going to have a good spring in Beloit," said the chief. "The Berlin Co. is running a full day crew and is looking for a night crew of 100 men. The Fairbanks people are also running with a full day crew."

MRS. H. CHAPMAN DIED IN DENVER

Another Old Resident of the Bower City Passed Away Yesterday.

Word was received in this city this morning by Mayhew London of the death of his only sister, Mrs. Horace Chapman, which occurred at the home of her daughter, Mrs. C. C. Bennett, at Denver, Col., yesterday afternoon at 1 o'clock, from the result of a severe attack of pneumonia. Mrs. Chapman will be remembered by many of the old settlers in Janesville, where she has made her home since 1846, removing to Denver about a year ago with her daughter, Mrs. C. C. Bennett. Besides a daughter, Mrs. C. C. Bennett, there are two brothers living in this city, Mayhew V. and James London. The remains are expected to arrive in the city Monday. Notice of the funeral will be given later.

EGGS DROP IN PRICE TODAY

ARE NOW WORTH THIRTY CENTS A DOZEN.

POTATOES ARE 70 CENTS

Hints Are Given to Housewives Whose Wishes Are for Many Delicacies.

Produce prices:
Fresh eggs, 30c doz.
Potatoes, 70c lb.
Sweet potatoes, 5c lb.
Lettuce, 5c lb.
Cabbage, 4c lb.
Radishes, 5c lb.
Michigan celery, 5 to 10c lb.
Granulated sugar, 18 lbs. \$1.
Fancy apples, 40c pk.
Bananas, 20c doz.
Oranges, 18 to 40c doz.
Cranberries, 7c t.
Creamery butter, 25c lb.
Dairy butter, 22c lb.
Cheese, 16 to 20c lb.
Eggs dropped to two cents today. The hens got back to work and they showed what they could do if pushed hard by competition. The supply in storage house came out also and this helped the egg market some. Eggs are, however, very scarce and real fresh ones should bring a premium if a guarantee went with every egg.

Potatoes Seventy
Potatoes are now worth seventy cents a bushel. They are not keeping well either and some of the grocers claim they are going to lose money on their supply owing to the usual shrinkage. Few car loads have been bought recently by any of the local merchants, they having laid in a supply earlier in the season. Michigan celery has come and is nice and crisp. It has more of a snap to it than the other celery that was on the market just before it came and is very welcome.

Fruits Good
Considering everything, cold weather and delayed transportation the fruit of the Janesville market is very good. Good eating apples are eagerly snapped up and grapes and oranges are easy sellers particularly the seedless variety. On the whole the fruit market is fairly steady, both in supply and demand for the good things.

Lobsters, live and boiled, are seen on some counters. They have a good sale among the class of trade who enjoy these costly delicacies. Shrimps in glass jars and in tins also have a ready market. Hothouse lettuce and head lettuce find ready customers and are delicious.

JANESVILLE MEN WILL MINE ZINC

Alderman Lowell and Others Have Leased a Tract of Land in Grant County Which Looks Promising.
Alderman E. W. Lowell, James Hunt, and the Parker Pen Co. are about to embark in the manufacture of zinc in Grant county. A lease of the Hardsack farm, containing 160 acres and located a mile from the town of Livingston, has been secured and it is upon this tract that black jack, from which zinc is made, is reported to have been found in paying quantities. The property is located only two miles from the best paying zinc producing mines in the United States.

STUDENTS MAY GO TO THE PHILIPPINES

General Allen, Head of the Constabulary, Asks Colonel Curtis for Names.

General Allen, who heads the American constabulary service of the United States in the Philippines, has written to Col. Charles Curtis, commanding the University regiment, asking for the names of possible candidates for service in his branch of the service in the Philippines. Col. Curtis has sent him the names of several promising candidates among them two Janesville boys and it is probable that they will soon receive a letter from General Allen offering them places in his branch of the service.

HOHENADEL MAY CAN THE OYSTER

Janesville Man Reported To Be in New Orleans Looking the Ground Over.

Dispatches from New Orleans announce that P. Hohenadel Jr., of this city is in the Crescent city investigating the establishment of a canning factory for preserving the oyster. The account sent out to the newspapers throughout the country say that he in consultation with G. H. T. Shaw of Dixon, Ill., and H. S. Howard of New Orleans. It speaks of Mr. Hohenadel as being one of the most prominent canners of vegetables in the United States with an extensive plant at Janesville.

JANESVILLE FEET FLAT AND WIDE

Few Approach the Ideal in the Opinion of a Former Shoe Dealer—Not Alone True of Men.

"It's a pretty fine foot that doesn't crowd a double B shoe and there are few of them in Janesville," said John Richardson to a group of men in a local tobacco store one day last week. A stock of such shoes would be almost worthless to the creditors. In this city at any rate, he continued. The narrow foot with the high instep is the ideal, but the general demand is for shoes to fit flat, wide feet and this is not alone true of the men-folk either.

FARMERS ARE TO MEET IN MADISON

ANNUAL GATHERING OF AGRICULTURISTS IN FEBRUARY.

A FINE PROGRAM ARRANGED

Topics of Interest to the Rural Residents Will Be Presented.

The program for the big agricultural meeting to be held in Madison Feb. 3 and 4, under the auspices of the state board of agriculture, has been completed and copies of it will be sent out to the leading farmers of the state next week. Three years ago the state board of agriculture conceived the idea of holding an annual meeting there for the purpose of giving the farmers of the state an opportunity of hearing and discussing the latest ideas and discoveries in agricultural science.

Kindred organizations will hold their annual meetings there the same week, among them being the Wisconsin Horticultural Society, Wisconsin Live Stock Breeders' Association, the Wisconsin Beekeepers' Association and the Short Course Agricultural College Alumni Association. All of the meetings will be held in the state capital.

The program of the meeting to be held under the auspices of the state board of agriculture is as follows:

The Program
Opening address, President George McKerrow of the state board of agriculture and state superintendent of farmers' institutes; "Mistakes we Make," L. Spaulding, River Falls, Wis.; "Popularizing Agricultural Education," Prof. K. C. Davis, Menomonie, Wis.; "The Cow That Does Not Pay," D. H. Foster, Fairchild; "Farm Poultry," Mrs. Adda F. Hawley, Elm Grove, Wis.; "Pure Food Laws of Wisconsin," State Dairy and Food Commissioner J. Q. Emery, Madison, Wis.; "Marsh Lands and Farm Fertility," Professor A. R. Whitson, College of Agricultural, Madison; "Practical Corn Breeding," Fred Meier, Sleepy Eye, Minn.; "Special Soiling Crops," Professor Thomas Shaw, St. Paul; "Educational Value of Live Stock Exhibits at Fairs," Fred Rietbrock, Milwaukee; "The Relationship of Live Stock to the Land," Professor George C. Humphrey, College of Agriculture, Madison; "Life Stock and Veterinary Science," Dr. A. S. Alexander, College of Agriculture, Madison.

COLD WAVE IS TO COME FROM WEST

Reports from Medicine Hat Announce That It Will Strike the City Sunday.

Janesville is expecting to experience a spell of weather tonight and tomorrow which will make that of the past few days seem like summer in comparison. The cold wave started from the Medicine Hat regions Friday morning and is expected to arrive in Janesville late this afternoon.

Had Summer Weather Thursday
Denizens of Medicine Hat perambulated over the town Thursday in straw hats and light summer clothes, the thermometer at noon going above 50, having started in to doing business at 44 at 7 o'clock in the morning. Friday morning it was another story, the mercury barely showing above the zero mark, while in the surrounding towns it was from 6 to 10 degrees below and 18 below at Edmonton.

The indications are that the cold wave will grow in severity as it travels east and the expectation is that the weather will be considerably below zero Sunday morning.

Snow Precedes Cold
Snow is expected tonight and Sunday morning. It will precede the cold wave and cause a rise in temperature in the morning, because of southerly winds. A shift to the northwest is predicted for this afternoon and then it will get cold.

The Mississippi Bubble

By EMERSON HOUGH

Author of "The Story of the Cowboy," "The Girl at the Halfway House," Etc.

(Copyright, 1903, by Emerson Hough.)

"You do not understand," said Will Law. "The separation means something for me."

"Surely you do not mean—you have no reference to Mary Connyngs?" cried Sir Arthur.

Will bowed his head abjectly and left the other to guess that which sat upon his mind. Sir Arthur drew a long breath and stopped his angry pacing up and down.

"It ran on for weeks," said Will Law. "We were to have been married. I had no thought of this. 'Twas I who took her to and from the prison regularly, and 'twas thus that we met. She told me she was but the messenger of the Lady Catharine."

Sir Arthur drew a long, slow breath. "Then I may say to you," said he, "that your brother, John Law, is a hundred times more traitor and felon than even now I thought him. Yonder he goes—and he shook his fist into the enveloping mist which hung above the waters. 'Yonder he goes, somewhere, I give you warning, where he deems no trail shall be left behind him. But I promise you, whatever he shall see and give account for this! There is none of us he has not deceived utterly, and like a black-hearted villain. He shall account for it, though it be years from now.'"

THE EVENING BIVOUAC.

meantime struck a fire, whose faint blue smoke curled lakeward in the soft evening air. Quickly, and with the system of experienced campaigners, the evening bivouac had been prepared; and wildly picturesque it must have seemed to a bystander, had there been indeed any possible spectator within many leagues.

Far enough was this from the turmoil of London, which Law and his companion had left nearly a year before; far enough still from the wild capital of New France, where they had spent the winter, after landing, as much by chance as through any plan, at the port of the St. Lawrence. Ever a demon of unrest drove Law forward; over there beckoned to him that irresistible West, of which he was one of the earliest to feel the charm.

Farther and farther westward, swift and swifter than ever the boats of the fur traders had made the journey before, he and his party, led by Du Mesne, the ex-galley-slave and wanderer whom Law had by chance met again, and gladly, at Montreal, had made the long and dangerous run up the lakes, past Michilimackinac, down the lake of Michigan, headed toward the interior of a new continent which was then, as for generations after then, the land of wondrous distances, of grand enterprises, of magnificent promises and immense fulfillments. The tales and legends of this bivouac belonged to John Law, bought by gold from the fanning tables of Montreal and Quebec, and ventured in the one great hazard which appealed to him most irresistibly, the hazard of life and fortune in a far land, where he might live unneighborly, and where he might forget. Gambler in England, gambler again in New France, now trading fur-merchant and voyageur, he was, as always, an adventurer. Du Mesne and his hardy crew hailed him already as a new captain of the trails, a new conqueror, won from the Old World by the savage witchery of the New. He was their brother; and had he indeed owned longer years of training, his keenness of eye, his strength of arm, his tirelessness of limb could hardly have been greater than they seemed in his first voyage to the West.

"Tous les printemps, Tant des nouvelles!" hummed Du Mesne, as he busied himself about the camp, casting the while a cautious eye to note the progress of the threatening storm.

"Tous les amants Changent des matresses. Jamais le bon vin n'endort—L'amour me reveille!" "The best is before us now, Monsieur 'Las," said Du Mesne, joining Law, at length. "Assuredly the best is always that which is ahead and which is unknown; but in point of fact the hardest of our journey is over, for henceforth we may stretch our legs ashore, and hunt and fish, and make good camps for madame, who, as we both perceive, is much in need of ease and care. We shall make all safe and comfortable for this night, doubt not."

"Meantime," continued he, "let us all see that all is well with our men and arms, for henceforth we must put out guards. Attention, comrades! Present your pieces and answer the roll-call! Pierre Berthier!"

"Tell Monsieur," replied the one better known as Pierre Noir, a tall and dark-visaged Canadian, clad in the common costume, half-Indian and half-civilized, which marked his class. A shirt of soft dressed buckskin fell about his thighs; his legs were encased in moose-skin leggings, deeply fringed at the seams. About his middle was a broad sash, once red, and upon his head a scanty cap of similar color was pushed back. At his belt hung the great hunting knife of the voyageur, balanced by a keen steel tomahawk such as was in common use among the Indians. In his hand he supported a long-barreled musket, which he now examined carefully in the presence of the captain of the voyageurs.

"Robert Challon!" next commanded

Du Mesne, and in turn the one addressed looked over his piece, the captain also scrutinizing the flint and priming with careful eye.

"Naturally, mes enfants," said he, "your weapons are perfect, as ever. Katakini, and you, Kabayan, my brothers, let me see," said he to the two Indians, the former a Huron, and the latter an Ojibway, both from the shores of Superior. The Indians arose silently, and without protest submitted to the scrutiny which over seemed to them unnecessary.

"Jean Brebouff!" called Du Mesne; and in response there arose from the shadows a wiry little Frenchman, who might have been of any age from 20 to 45, so sun-burnt and wrinkled, yet so active and vigorous he did seem.

"Mon ami," said Du Mesne to him, childlingly, "see now, here is your flint all but out of its engagement. Pray you, have better care of your piece. For this you shall stand the long watch of the night. And now let us all to bed."

One by one the little party was lost to view within the dark interior of the hut which they had arranged for themselves. Du Mesne retired a distance from the fire and seated himself upon a fallen log, his pipe glowing like a coal in the enveloping darkness. Law himself did not so soon leave the outer air. He remained gazing out at the wild scene about him, at the roll-waves dashing on the shore, their crests whitening in the glare of the lightning, now approaching more closely. He harkened to the roll of the far-off thunder reinforced by the thunder of the waves upon the shore, and noted the sweep of the black forest about, of the black sky overhead, until save for one far-off, faint and feeble star.

It was a new world, this that lay around him, a new and savage world. If there were a world behind him, a world which once held sunlight and flowers, and love and hope—why then, it was a world lost and gone forever, and it was very well that this new world should be so different and so stern.

In the darkness John Law heard a voice, the voice of a woman in terror. Swiftly he stepped to the door of the rude lodge.

"Don't let them sing it again—never any more—that song!"

"And what, Madam?"

"That one—'Tous les amants changent des matresses!'"

A moment later she whispered, "I am afraid."

CHAPTER XVIII.

THE STORM.

Marshaling to the imperious orders of the tempest, and crowding close upon the flaming standards of the lightning, the armies of the clouds came on. The sea-wide surface of the lake went dull, and above it bent a sky appalling in its blackness. The wind at first was light, then stiff and gusty, like the rising choler of a man affronted and nursing his own anger. It gained in volume and swept on across the tops of the forest trees, as though with a hand contemptuous in its strength, forbearing only by reason of its own whim. Now and again the cohorts of the clouds just hinted at parting, letting through a pale radiance from the western sky, where lingered the departing day. This light, as did the illuminating glare of the forked flames above, disclosed the white helmets of the trooping waters, rushing on with thunderous unison of tread; and the rattling thunder-shocks, intermittent, though coming steadily nearer, served but to emphasize these foot strokes of the waves. The heavens above and the waters under the earth—these conspired, these marched together, to assail, to overwhelm, to utterly destroy.

To destroy what? Why this wild protest of the wilderness? Was it this wide-blown, scattered fire, whose sparks and ashes were sown broadcast, till but stubborn remnants clung under the sheltering back-log of the bivouac hearth? Was it this trail lodge, built upon plant, yielding poles, covered cunningly with mats and bark, carpeted with robe of elk and buffalo? Yet why should the elements rage at a tiny fire, and why should they tear at a little house of nomad man, since these things were old upon the earth? Was it somewhat else that incited this elemental rage? This might have been; for surely, builder of this hearth-fire which would not quench, master of this house which would not yield, there was now come up to the door of the wilderness the white man, risen from the sea, heralding the day which the tribes had for generations blindly prophesied! The white man, stern, stubborn, fruitful, had come to spurn the west of its secrets!

Let all the elements therefore join in riotous revolt! Let earth and sea and sky make common cause! Rage, waves, and blaze, ye fiery tongues, and threaten, forests, with all your ominous voices! Smile, destroy, or terrify into swift retreat this little band! Crush out their tenement! Loosen and brush off this feeble finger-grasp at the ancient threshold! With banners of flame, with armies of darkness, with shoutings of the captains of the storms, assail, denude, destroy, if even by the agony of their horrors, these feeble folk now come hither! And by this more especially, since they would set the seal of fruitfulness upon the land, and bring upon the earth a generation yet to follow. Hover about this bed in the frail and swaying lodge of bark and boughs, all ye most terrifying spirits! Let not this thing be!

My Breath.

Shortness of Breath Is One of the Commonest Signs of Heart Disease.

Notwithstanding what many physicians say, heart disease can be cured. Dr. Miles' New Heart Cure has permanently restored to health many thousands who had found no relief in the medicines (allopathic or homoeopathic) of regular practicing physicians. It has proved itself unique in the history of medicine, by being so uniformly successful in curing these diseases.

Nearly always, one of the first signs of trouble is shortness of breath. Whether it comes as a result of walking or running up stairs, or of other exercises, if the heart is unable to meet this extra demand upon its pumping powers—there is something wrong with it.

The very best thing you can do, is to take Dr. Miles' New Heart Cure. It will go to the foundation of the trouble, and make a permanent cure by strengthening and renewing the nerves.

"I know that Dr. Miles' New Heart Cure is a great remedy. I suffered from shortness of breath, and other troubles, and pains in my left side. For months at a time I would be unable to lie on my left side, and it lay flat on my back would nearly smother me. A friend advised me to use Dr. Miles' New Heart Cure, which I did at once, and after taking several bottles of the Heart Cure the pains in my side and other symptoms vanished. I am now entirely well. All these dreadful smothering spells are a thing of the past. I feel like a new man."—J. L. McMillan, O.

To Extend Pensions. Washington, Jan. 16.—Senator Doliver introduced a bill providing for the pensioning of all persons who had ninety days or more military or naval service in the civil war, and for widows of such soldiers or sailors who were married prior to June 27, 1895. The pensions are to be \$12 a month, to take effect at the date of application after the passage of the bill. The bill is that introduced by the national encampment of the Grand Army held at San Francisco.

Favors Increase of Carriers. Washington, Jan. 16.—Postmaster General Payne, in a letter to Chairman Overstreet of the house committee on postoffices and post roads, calls attention to the order of Jan. 21, 1902, forbidding employees of the department to solicit an increase of pay except through the heads of the department. He transmits therewith a request for increases in pay from city and rural free delivery carriers, with a favorable recommendation for its consideration.

Naval Militia Officers. Washington, Jan. 16.—The Naval Militia Association of the United States adjourned sine-die after electing as officers: President, Command-

er Edwin Beer, Baltimore; first vice president, Lieut. Commander H. C. Darby, Illinois; second vice president, Lieut. Sidney Hieber, Washington, D. C.; secretary, Lieut. Willard, Baltimore; treasurer, Commander Washington Irving, Hoboken, N. J.

Pay for Queen Lili. Washington, Jan. 16.—The senate committee on Pacific Islands and Porto Rico has made a favorable report on Senator Blackburn's bill to pay Liliuokalani, formerly queen of Hawaii, the sum of \$200,000 in full satisfaction of all claims to the former crown lands in Hawaii.

Presidential Reception. Washington, Jan. 16.—President and Mrs. Roosevelt gave another largely attended musicale at the White House Friday night, the invited guests including the cabinet, a large representation of the diplomatic corps, senators and representatives in congress and residents of Washington, in addition to some out-of-town guests.

Bids for Battleships. Washington, Jan. 16.—The lowest bid for the battleships Idaho and Mississippi was made by Crump & Sons of Philadelphia, to be completed in thirty-nine months, \$3,300,000, or two vessels, one within thirty-eight months, and the other forty months, at \$2,993,600 each. It practically was decided to award the contract to the Crumps.

THE CENTRAL LIFE MAKES LARGE GAINS

A WESTERN COMPANY WITH A PHENOMENAL RECORD.

The Management and Growth of the Company Have Won the Admiration and Begotten the Highest Confidence of the Insuring Public.

In looking over the report we find the progress made by the company during the year most gratifying. The Central Life has taken its place among the best insurance companies of the country, and has made a record for policyholders in many respects unrivaled. The management and growth of the Central Life during the past years have won the admiration and begotten the highest confidence of all persons acquainted with the company.

The annual statement for 1903 shows every department of the company in the most satisfactory condition. The progress made during the past year is a guarantee of large growth in the future, while the large surplus accumulated assures the policyholder of a most profitable investment. The company has recently established business in four other states and has announced its plan of entering a number of states during the year 1904. The future growth of the company will, therefore, be largely increased. The building up of strong financial institutions in the West is a matter that should interest all business men, for the result is to stimulate all lines of business. If the past record of the Central Life can be taken as a prophetic of its future growth it is destined to become the "Giant of the West."

The Home Office of the company has been enlarged by adding about one thousand square feet of floor space to the seven large rooms formerly occupied, and the entire office is equipped with the most modern appliances to facilitate business. The success of the Central Life has attracted the attention of many able insurance men throughout the country who realize the superior opportunities with a young and growing company. The favorable conditions under which the company enters upon the present year assures it of a very large growth in the future.

MARKET TALK ON CHICAGO MARKET

Latest Gossip from the Closing Reports of the Windy City's Mart.

Chicago, Ill., Jan. 16.—The foreign-

ers sent in unchanged cables and with no change in British consols our market opened quiet. It soon became evident that there was no wheat for sale at quoted prices and shorts look frightened and started a scramble for the cereal. The natural result was a rapid rise of over one cent. While the newspapers are talking peace the Japs are hustling for all they are worth securing steamships for the transportation of troops, getting their warships where they will do the most good and generally preparing for the struggle that to them at least looks inevitable. The situation is very grave and from our standpoint it is dangerous to be short any of the grains. Natural conditions are bullish. Complaints from the southwest are very numerous of dry weather, no snow covering, etc. We can only see one side to the wheat market at present and that is the long side.

Corn market was as strong as wheat and May scored a new high price. There was a good deal of short covering but the strength of the market is only what could be expected under existing conditions. Buy corn on any signs of weakness. Oats advanced with the other markets, the leading bull adding to his already extensive line. The gain was not held but the market was strong and oats should be bought right now. Provisions were not very active and about held their own. On dips we still advise purchases taking fair profits and replacing the line on breaks. Floyd, Crawford & Co.

LET YOUR RENT MONEY PAY FOR YOUR HOME

The Co-Operative Home Assurance Co. OF MILWAUKEE, WIS.

Is a home company, organized and controlled by home people. Our purpose is to make it possible for every rent payer to own his home, buy a farm or pay his mortgage without the customary advance payment, paying no more each month than he is now paying rent, and

WITHOUT INTEREST

Why not live in a Home of your selection anywhere at a cost Less than Rent, Without Interest, Without a Large Payment Down, and with Protection in case of Sickness or Death?

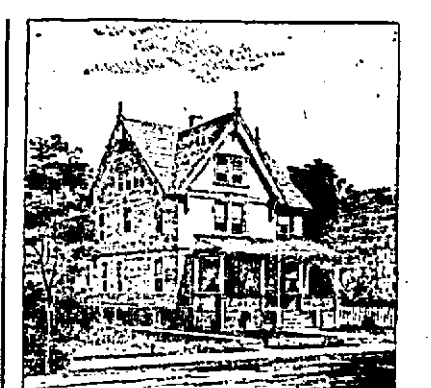

This home costs \$2,100.00 Monthly payment, - \$12.10

CONVINCE yourself in figuring how much you have paid in rent for ten years and see if you have not paid for a house which the landlord still owns. You can select your own lot, build or buy a house or farm anywhere in the United States and we will pay for it. Our plan is simple, safe and positively sure. Safe because every dollar you pay is secured by its full value in Real Estate, the safest security on earth. Sure because we do not attempt to give you something for nothing—you pay for your home but we make it possible for you to pay for it in small monthly installments—positively no more than you are paying for rent. Every payment you make gives you an ownership in your home, to the amount you pay. Instead of going into the landlord's pocket YOU SAVE IT. You are not limited to any particular locality—you are at liberty to select your home wherever you please. A postal card addressed to the home office will bring you our pamphlet explaining in detail our organization, showing you plainly how you may own your own home, and

SAVE RENT

Our Mr. E. A. Lathrop will be at the Grand Hotel, Saturday, Sunday, Monday, Tuesday and Wednesday, January 16th to 20th and will be pleased to explain the plan to you. See him at any time before 10 o'clock at night. Call, write or phone
